## **SUPPLEMENTARY INFORMATION:**

### **I. Background**

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (i.e., employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (the OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of efforts in obtaining information (29 U.S.C. 657).

To meet many of OSHA's program needs, OSHA is proposing to continue its collection of occupational injury and illness data and information on the number of

workers employed and the number of hours worked from establishments in portions of the private sector and from some state and local government agencies. OSHA will collect the data on an annual basis from up to 100,000 employers already required to create and maintain records pursuant to 29 CFR Part 1904. These data will allow OSHA to calculate occupational injury and illness rates and to focus its efforts on individual workplaces with ongoing serious safety and health problems. Successful implementation of this data collection is critical to OSHA's outreach and enforcement efforts and the data requirements tied to the Government Performance and Results Act (GPRA).

## **II. Special Issues for Comment**

Public comment is invited on all issues raised by this Federal Register Notice.

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.
